## Hog Ring Pliers

91

92

- > for the professional replacement of automotive upholstery to the seat frame compatible with all popular upholstery rings or hog rings
- > recessed groove located in the jaws securely hold the hog rings in the proper position before they are crimped
- > closing spring holds the pliers closed which allows for the ring to be securely positioned before being compressed
- > high transmission ratio allows for easy compression of the hog rings
- > multi-component grips for added hand comfort
- > durable and strong
- > special tool steel; forged, oil-hardened

91 92 180

Reliable use for repairs to car seats, e.g. to renew seat cover, replace sensor or seat heating mats
